and Windham High are also undefeated, having won the only game each has played. The Academy and Morgan school bring up the rear, both having lost two games, without winning a league contest.

At Westerly the Academy boys could do nothing against the pitching of Pember, who held the N. F. A. stickers to three hits and had them shut out up to the seventh Inning. The Westerly twirler fanned ten of the Norwich students, who were unable to break through for any work with the break through for any work with the bat. Marray being the only ones to connect for safeties.

Westerly did some heavy smashing against the curves of Lawler, landing for a brace of doubles and triples. By snappy all-around work the local boys held them down till the fifth, when they scored three runs, following this with one more in the seventh, and put the game away safely in the eighth with four more runs.

ELEMENTS OF STRENGTH Price Movements of Stocks-Mixed

New York, May 5 .- The stock market today showed the waning influence of the commodities clause decision in some subsidence of activity and in a mixed tone in the speculation. The stimulating influence of the supreme court's action had the edge taken off The Dime Savings Bank

Court's action had the edge taken off it by the reports of the cabinet meeting at Washington yesterday and the discussion said to have taken place there of ways and means to amend the Hepburn act in a way to make the object of the commodities clause effective and within the limits permitted by the supreme court's decree. There were elements of strength in the day's price movement of stocks, but they were elements of strength in the day's price movement of stocks, but they were diverted to the less influential quarters of the list, except for a late advance in Southern Pacific. In the usual market, leaders, especially in Reading and Union Pacific, the fact soon appeared that effective selling orders were placed in the market to meet any further advance in prices. orders were placed in the market to meet any further advance in prices. The volume and persistence of these selling orders led to their characterization as important. Their effect was to dampen the enthusiasm of the bull party and to prompt to greater caution in the extension of their operations. This selling seemed to be invited by the extent of the rise which has occurred and the resulting profits accourred and the resulting profits ac-rued, rather than by any develop-ient of an unfavorable nature in the ordition of affairs. Naturally more attention was given to unfavorable possibilities with the check to an upward tendency to prices established. The crop outlook come in for genewed consideration. Advices from various sources continued to show the delay in seading and in grouth contents by the Rich or poor or proud and handsome, seeding and in growth caused by the unsensonable weather, and while the chances for making good the delay were kept in mind, the point was enforced that account should be taken of the fact that crops are several weeks later than the normal in developing. later than the normal in developing.

Not only grain crops, but cotton planting is affected by these conditions.

Stock market operations desire to see the complexion of the government report of crop conditions to be issued on Friday to help in estimating the prospect. Bankers are coming to feel that they are entitled to better interest rates for their money, and time money brokers report that the supply of funds for that purpose has been diof funds for that purpose has been di-minished in the last few days by the practical withdrawal from the market

practical withdrawal from the market of some of the important banks and trust companies. This action is based on the assumption that any effective revival of trade such as is not hoped for must improve the demand for arcking incilities. The disposition to hold funds in hand for this purpose warmins a hopeful view of the trade outlook. It is commonly agreed, however, that any growth of activity in the demand for money, aside from speculative uses, will modify the speculative position and hamper the abundant fagilities which have been enjoyed for that purpose for many months past. The result of the day's operations was practically a drawn operations was practically a drawn battle betwen the contending forces in the speculation. Bonds were firm. Total sales, par value, \$6,858,000. Unit-

The Holyokes did a great deal of kicking at decisions of Umpire Murray. In the middle of the seventh inning Sindler was sent off the field for throwing dirt in the umpire's face because of a decision and Reiser. face because of a decision and Reiger was sent into the box. Pitcher Stevens retired in the fifth inning and Halli-gan took his place in the box.

perci, will have to appear before board of police commissioners at next meeting to answer to the its next meeting to answer to the charge of extorting money from the St. Joseph Hungarian society at the dance on the evening of the 18th inst. The charges were preferred against them by Superintendent Birmingham and were supplemented by statements from Lieut. John H. Redgate of the Third precinct station. The report stated that the two officers went to the dance given by the society and demanded \$1 each from the officers of the society, or they would close the balt.

The officers of the dance went to Mr. Cigier, who told the officers that they could not close the hall, as the society had a permit from the head of the police department to have the dance. But one of the specials was given \$3, one-half of which was to be given to his companion.

The matter was later reported to the Third precinct station, and it was investigated, with the result that charges were preferred.

The two men will be instructed to appear before the meeting on the 15th to answer the charges.
